FERC FINANCIAL REPORT FERC FORM No. 1: Annual Report of Major Electric Utilities, Licensees and Others and Supplemental Form 3-Q: Quarterly Financial Report

These reports are mandatory under the Federal Power Act, Sections 3, 4(a), 304 and 309, and 18 CFR 141.1 and 141.400. Failure to report may result in criminal fines, civil penalties and other sanctions as provided by law. The Federal Energy Regulatory Commission does not consider these reports to be of confidential nature

INSTRUCTIONS FOR FILING FERC FORM NOS. 1 and 3-Q

GENERAL INFORMATION

I. Purpose

FERC Form No. 1 (FERC Form 1) is an annual regulatory requirement for Major electric utilities, licensees and others (18 C.F.R. § 141.1). FERC Form No. 3-Q (FERC Form 3-Q) is a quarterly regulatory requirement which supplements the annual financial reporting requirement (18 C.F.R. § 141.400). These reports are designed to collect financial and operational information from electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be non-confidential public use forms.

II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject To the Provisions of The Federal Power Act (18 C.F.R. Part 101), must submit FERC Form 1 (18 C.F.R. § 141.1), and FERC Form 3-Q (18 C.F.R. § 141.400).

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

- (1) one million megawatt hours of total annual sales,
- (2) 100 megawatt hours of annual sales for resale,
- (3) 500 megawatt hours of annual power exchanges delivered, or
- (4) 500 megawatt hours of annual wheeling for others (deliveries plus losses).

III. What and Where to Submit

- (a) Submit FERC Forms 1 and 3-Q electronically through the forms submission software. Retain one copy of each report for your files. Any electronic submission must be created by using the forms submission software provided free by the Commission at its web site: http://www.ferc.gov/docs-filing/forms/form-1/elec-subm-soft.asp. The software is used to submit the electronic filing to the Commission via the Internet.
- (b) The Corporate Officer Certification must be submitted electronically as part of the FERC Forms 1 and 3-Q filings.
- (c) Submit immediately upon publication, by either eFiling or mail, two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders. Unless eFiling the Annual Report to Stockholders, mail the stockholders report to the Secretary of the Commission at:

Secretary Federal Energy Regulatory Commission 888 First Street, NE Washington, DC 20426

(d) For the CPA Certification Statement, submit within 30 days after filing the FERC Form 1, a letter or report (not applicable to filers classified as Class C or Class D prior to January 1, 1984). The CPA Certification Statement can be either eFiled or mailed to the Secretary of the Commission at the address above.

The CPA Certification Statement should:

- a) Attest to the conformity, in all material aspects, of the below listed (schedules and pages) with the Commission's applicable Uniform System of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
- b) Be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 41.10-41.12 for specific qualifications.)

Reference Schedules	<u>Pages</u>
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

e) The following format must be used for the CPA Certification Statement unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

"In connection with our regular examination of the financial statements of _____ for the year ended on which we have reported separately under date of _____ , we have also reviewed schedules ____ of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases."

The letter or report must state which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

- (f) Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. To further that effort, new selections, "Annual Report to Stockholders," and "CPA Certification Statement" have been added to the dropdown "pick list" from which companies must choose when eFiling. Further instructions are found on the Commission's website at http://www.ferc.gov/help/how-to.asp.
- (g) Federal, State and Local Governments and other authorized users may obtain additional blank copies of FERC Form 1 and 3-Q free of charge from http://www.ferc.gov/docs-filing/forms/form-1/form-1.pdf and http://www.ferc.gov/docs-filing/forms.asp#3Q-qas.

IV. When to Submit:

FERC Forms 1 and 3-Q must be filed by the following schedule:

- a) FERC Form 1 for each year ending December 31 must be filed by April 18th of the following year (18 CFR § 141.1), and
- b) FERC Form 3-Q for each calendar quarter must be filed within 60 days after the reporting quarter (18 C.F.R. § 141.400).

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the FERC Form 1 collection of information is estimated to average 1,168 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the FERC Form 3-Q collection of information is estimated to average 168 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

GENERAL INSTRUCTIONS

Prepare this report in conformity with the Uniform System of Accounts (18 CFR Part 101) (USofA). Interpret

II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted, (Enter cents for averages and

all accounting words and phrases in accordance with the USofA.

- figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date amounts.
- Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions (see VII. below).
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- For any resubmissions, submit the electronic filing using the form submission software only. Please explain VII the reason for the resubmission in a footnote to the data field.
- VIII. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.
- IX. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.

Definitions for statistical classifications used for completing schedules for transmission system reporting are as follows:

- FNS Firm Network Transmission Service for Self. "Firm" means service that can not be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff. "Self" means the respondent.
- FNO Firm Network Service for Others, "Firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff.
- LFP for Long-Term Firm Point-to-Point Transmission Reservations. "Long-Term" means one year or longer and" firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Point-to-Point Transmission Reservations" are described in Order No. 888 and the Open Access Transmission Tariff. For all transactions identified as LFP, provide in a footnote the

termination date of the contract defined as the earliest date either buyer or seller can unilaterally cancel the contract.

- OLF Other Long-Term Firm Transmission Service. Report service provided under contracts which do not conform to the terms of the Open Access Transmission Tariff. "Long-Term" means one year or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. For all transactions identified as OLF, provide in a footnote the termination date of the contract defined as the earliest date either buyer or seller can unilaterally get out of the contract.
- SFP Short-Term Firm Point-to-Point Transmission Reservations. Use this classification for all firm point-to-point transmission reservations, where the duration of each period of reservation is less than one-year.
- NF Non-Firm Transmission Service, where firm means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions.
- OS Other Transmission Service. Use this classification only for those services which can not be placed in the above-mentioned classifications, such as all other service regardless of the length of the contract and service FERC Form. Describe the type of service in a footnote for each entry.
- AD Out-of-Period Adjustments. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting periods. Provide an explanation in a footnote for each adjustment.

DEFINITIONS

- I. Commission Authorization (Comm. Auth.) -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent -- The person, corporation, licensee, agency, authority, or other Legal entity or instrumentality in whose behalf the report is made.

EXCERPTS FROM THE LAW

Federal Power Act, 16 U.S.C. § 791a-825r

- Sec. 3. The words defined in this section shall have the following meanings for purposes of this Act, to with:
- (3) 'Corporation' means any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. It shall not include 'municipalities, as hereinafter defined;
 - (4) 'Person' means an individual or a corporation:
- (5) 'Licensee, means any person, State, or municipality Licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;
- (7) 'municipality means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the Laws thereof to carry and the business of developing, transmitting, unitizing, or distributing power;
- (11) "project' means. a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or fore bay reservoirs directly connected therewith, the primary line or lines transmitting power there from to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, Lands, or interest in Lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;
- "Sec. 4. The Commission is hereby authorized and empowered
- (a) To make investigations and to collect and record data concerning the utilization of the water 'resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development -costs, and relation to markets of power sites; ... to the extent the Commission may deem necessary or useful for the purposes of this Act."
- "Sec. 304. (a) Every Licensee and every public utility shall file with the Commission such annual and other periodic or special* reports as the Commission may be rules and regulations or other prescribe as necessary or appropriate to assist the Commission in the -proper administration of this Act. The Commission may prescribe the manner and FERC Form in which such reports salt be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and Liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, generation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies*.10

"Sec. 309. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the FERC Form or FERC Forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be field..."

General Penalties

The Commission may assess up to \$1 million per day per violation of its rules and regulations. *See* FPA § 316(a) (2005), 16 U.S.C. § 825o(a).

	INFORMATION ON FORMULA RATES Formula Rate Variances									
am 2. The For 3. The	If a respondent does not submit such filings then indicate in a footnote to the applicable Form 1 schedule where formula rate inputs differ from amounts reported in the Form 1. The footnote should provide a narrative description explaining how the "rate" (or billing) was derived if different from the reported amount in the Form 1. The footnote should explain amounts excluded from the ratebase or where labor or other allocation factors, operating expenses, or other items impacting formula rate inputs differ from amounts reported in Form 1 schedule amounts. Where the Commission has provided guidance on formula rate inputs, the specific proceeding should be noted in the footnote.

NOTES TO FINANCIAL STATEMENTS (Continued)				

Prairie Wind Transmission, LLC

Notes to Financial Statements

1. DESCRIPTION OF BUSINESS

Prairie Wind Transmission, LLC is a regulated utility organized in 2008 under the laws of the State of Delaware. Unless the context otherwise indicates, all references in this report to "the company," "we," "us," "our" and similar words are to Prairie Wind Transmission, LLC, alone and not together with its members.

We were organized to provide electric transmission services in the Southwest Power Pool (SPP) region in Kansas. Currently, we provide such services with 109 miles of a 345 kilovolt, double-circuit transmission line. Our headquarters is located at 818 South Kansas Avenue, Topeka, Kansas 66612.

We are owned equally by Westar Energy, Inc. (Westar) and Electric Transmission America, LLC (ETA). ETA is a limited liability company owned 49.5% by AEP Transmission Holding Company, LLC, a wholly-owned subsidiary of American Electric Power Company, Inc. (AEP), 0.5% by AEP Transmission Partner LLC, a wholly-owned subsidiary of AEP, and 50% by BHE America Transco, LLC, an indirect wholly-owned subsidiary of Berkshire Hathaway Energy Company.

Pursuant to applicable provisions of the Delaware Limited Liability Company Act, members have no liability for the debts, obligations or other liabilities of the company, except in certain circumstances where the corporate veil may be pierced under common law and where members have contracted performance guarantees to the SPP.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

For the purpose of this report, the financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its Uniform System of Accounts and published Accounting Releases, which is a comprehensive basis of accounting other than generally accepted accounting principles. The principal differences from accounting principles generally accepted in the United States of America relate to (1) the presentation of income taxes, (2) the presentation of regulatory assets and liabilities, (3) the presentation of long-term debt, and (4) the presentation of retained earnings.

Events which occurred subsequent to the date of the balance sheet have been evaluated for potential recognition or disclosure in the financial statements through April 13, 2018, the date these financial statements were available to be issued.

Use of Management's Estimates

When we prepare our financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and expenses and the related disclosure of those items during the reporting period. We evaluate our estimates on an ongoing basis, including those related to income taxes, over/under recovery on our Annual Transmission Revenue Requirement (ATRR), contingencies and litigation. Actual results may differ from those estimates under different assumptions or conditions.

Cash and Cash Equivalents

We consider investments that are highly liquid and have maturities of three months or less when purchased to be cash equivalents.

Name of Respondent This Report is:		Date of Report	Year/Period of Report	
	(1) X An Original	(Mo, Da, Yr)	-	
Prairie Wind Transmission, LLC	(2) A Resubmission	1.1	2017/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

Property, Plant and Equipment

We record the value of property, plant and equipment at cost. For plant, cost includes contracted services, direct labor and indirect charges for engineering and supervision from our members.

Debt Issuance Costs

We accumulate costs incurred to issue debt and amortize this amount over a period commensurate with the term of the related debt.

Revenue Recognition

Revenue is determined by a formula rate mechanism approved by FERC. We recognize revenue when amounts are known and realizable. See Note 3, "Rate Matters and Regulation," for additional information regarding revenue recognition.

Pre-commercial Costs

We accumulated pre-commercial costs, including carrying charges, to a regulatory asset. We completed the amortization of the remaining \$0.2 million of this regulatory asset to operating expense in the first quarter of 2016.

Supplementary Cash Flow Information

Year Ended December 30, 2017 2016 (In Thousands)

CASH PAID FOR:

Interest on financing activities, net of amount capitalized..... \$ 2,799 \$ 2,944

3. RATE MATTERS AND REGULATION

FERC

FERC authorized the recovery of our costs through a formula rate and further authorized a return on equity (ROE) of 12.8%, comprised of a 10.8% base ROE, 1.5% incentive adders, and 0.5% adder for Regional Transmission Organization (RTO) participation. The formula rate uses our actual capital structure and limits the equity component to not exceed 60%.

Under the formula rate mechanism approved by FERC, we calculate our ATRR based on projected costs and plant balances. The ATRR is collected through the SPP's Open Access Transmission Tariff rates. Each year we file an update to the ATRR which includes projections for costs to be incurred, an allowed return on investment and a prior period true-up adjustment with interest. Our true-up adjustment is the difference between the previous rate year's actual ATRR and the previous rate year's projected ATRR. This amount is recorded as a regulatory asset or liability until amortized to regulatory debits or credits in a later year.

NOTES TO FINANCIAL STATEMENTS (Continued)				

4. INCOME TAXES

We are a limited liability company that is treated as a partnership under the Internal Revenue Code and applicable state statutes. As a result, we are not liable for federal or state income taxes. We are allowed, however, to recover in rates, as a component of our cost of service, the amount of income taxes that are the responsibility of our members. As such, we have included a provision for our members' federal and state income tax in this report.

The Tax Cuts and Jobs Act (TCJA), which was signed into law in December 2017, significantly reforms the Internal Revenue Code (IRC), generally effective January 1, 2018. The TCJA contains significant changes to federal corporate income taxation, including, in general and among other things, a federal corporate income tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, limiting the deduction for net operating losses and eliminating net operating loss carrybacks for losses after 2017, and eliminating our use of bonus depreciation on new capital investments made after September 27, 2017. As a result, we decreased deferred income tax liabilities by approximately \$12.5 million and made corresponding adjustments to regulatory assets and liabilities.

The current tax provisions recognized are accumulated in account 236 – Accrued Income Taxes. Distributions paid to our members for the income taxes attributable to their ownership in the Company reduce this balance. We did not make a tax distribution during the year ended December 31, 2017. We made a tax distribution of \$3.0 million during the year ended December 31, 2016.

Income tax expense is composed of the following components.

	Year Ended December 31,		oer 31,	
	<u>2017</u> <u>2016</u>		<u> 2016</u>	
		(In Tho	usands)	
Charged to operating expense (net):				
Current Federal	\$	-	\$	-
Current State		-		-
Total Current		-		-
Deferred		5,308		5,155
Total income tax expense	\$	5,308	\$	5,155

Name of Respondent This Report is:		Date of Report	Year/Period of Report	
	(1) X An Original	(Mo, Da, Yr)	-	
Prairie Wind Transmission, LLC	(2) A Resubmission	1.1	2017/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

The tax effect of temporary differences related to deferred tax assets and deferred tax liabilities are summarized in the following table.

	As of December 31,		<u>1,</u>	
		<u>2017</u>		<u>2016</u>
		(In Thou	isands)	
Deferred tax assets:				
Net operating loss carryforward	\$	8,085	\$	16,234
Deferred carrying costs		949		1,414
Start-up expenses		6		134
Accrued SEAMS/MISO refund		-		38
Bank note capitalized interest and fees		-		1,096
Income taxes refundable to customers, net		2,159		=
Total deferred tax assets	\$	11,199	\$	18,916
Deferred tax liabilities:				
Accelerated depreciation	\$	21,133	\$	31,637
SPP revenue refund		90		133
Total deferred tax liabilities	\$	21,223	\$	31,770
Net deferred tax liabilities	\$	10,024	\$	12,854

The effective income tax rates are computed by dividing total federal and state income taxes by the sum of such taxes and net income. The difference between the effective tax rates and the federal statutory income tax rates are as follows.

	Year Ended De 2017	ecember 31, 2016
Statutory federal income tax rate	35.0%	35.0%
State income taxes	4.5	4.5
Effective income tax rate	39.5%	39.5%

5. NOTES PAYABLE

We had a \$5.0 million unsecured revolving credit facility with a bank that terminated in September 2017. Prior to termination, and as of December 31, 2016, we had no borrowed amounts or letters of credit outstanding under this facility.

We issued \$85.0 million principal amount of 3.68% fixed-rate senior secured notes that are due serially with final maturity in December 2044. The notes amortize at a constant 2.5% and are secured by utility assets. The carrying value of the notes was approximately \$73.0 million as of December 31, 2017, and \$76.8 million as of December 31, 2016. The fair value was approximately \$74.6 million and \$75.5 million as of the same dates. We measure the fair value of the notes based on similar risk-rated utility yields with similar or interpolated maturities at the measurement date.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
	(1) X An Original	(Mo, Da, Yr)		
Prairie Wind Transmission, LLC	(2) _ A Resubmission	11	2017/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

The principal amounts of our senior secured note maturities as of December 31, 2017 are as follows.

<u>Year</u>	(In	<u>Thousands)</u>
2018	\$	3,605
2019		3,427
2020		3,258
2021		3,097
2022		2,944
Thereafter		56,690
Total Maturities	\$	73,021

6. COMMITMENTS AND CONTINGENCIES

We may be subject to certain claims and legal actions arising in our ordinary course of business. The ultimate outcome of such pending or potential litigation cannot be predicted. Management does not anticipate that the liabilities, if any, arising from such proceedings would have a material adverse effect on our financial statements.

7. RELATED PARTY TRANSACTIONS

Our cash management function, including cash receipts and disbursements, is performed by Westar. We are billed by our members for their employees' time and expenses for services performed on our behalf. Our intercompany balances are listed below:

	As of December 31,				
	20	17		2016	
		isands)			
Accounts Receivable from Members					
Westar Energy, Inc.	\$	88	\$		
Total Account 146	\$	88	\$		
Accounts Payable to Members					
Westar Energy, Inc.	\$	-	\$	704	
Electric Transmission America, LLC		<u>-</u>		1	
Total Account 234	\$		\$	705	

We distributed \$15.0 million and \$13.0 million as returns to members during the years ended December 31, 2017 and 2016, respectively. We report these distributions as cash outflows from financing activities on our statement of cash flows.

the ye 2. If the separate member 3. A separate	Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show omputation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be field, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group member, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members. A substitute page, designed to meet a particular need of a company, may be used as Long as the data is consistent and meets the requirements of the above instructions. For electronic reporting purposes complete Line 27 and provide the substitute Page in the context of a footnote.

		SALE	S FOR RESALE (Acco	ount 447)		+			
1. Report all sales for resale (i.e., sales to purchasers other than ultimate consumers) transacted on a settlement basis other than power exchanges during the year. Do not report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges on this schedule. Power exchanges must be reported on the Purchased Power schedule (Page 326-327). 2. Enter the name of the purchaser in column (a). Do note abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser. 3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows: RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers. LF - for tong-term service. "Long-term" means five years or Longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for Long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or setter can unilaterally get out of the contract. Fr - for intermediate-term firm service. Use this category for all firm services where the duration of each period of commitment for service is one year or less. LU - for Long-term firm service from a designated generating unit. "Long-term" means five years or Longer. The a

autho 2. In abbro trans 3. In FNS Long Servi 4. Re 5. Re dema other comp mone inclu- 6. Er	1. Report all transmission, i.e. wheeling or electricity provided by other electric utilities, cooperatives, municipalities, other public authorities, qualifying facilities, and others for the quarter. 2. In column (a) report each company or public authority that provided transmission service. Provide the full name of the company, abbreviate if necessary, but do not truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation with the transmission service provider. Use additional columns as necessary to report all companies or public authorities that provided transmission service for the quarter reported. 3. In column (b) enter a Statistical Classification code based on the original contractual terms and conditions of the service as follows: FNS - Firm Network Transmission Service for Self, LFP - Long-Term Firm Point-to-Point Transmission Reservations. OLF - Other Long-Term Firm Transmission Service, SFP - Short-Term Firm Point-to-Point Transmission Reservations, NF - Non-Firm Transmission Service, and OS - Other Transmission Service. See General Instructions for definitions of statistical classifications. 4. Report in column (c) and (d) the total megawatt hours received and delivered by the provider of the transmission service. 5. Report in column (e), (f) and (g) expenses as shown on bills or vouchers rendered to the respondent. In column (e) report the demand charges and in column (f) energy charges related to the amount of energy transferred. On column (g) report the total of all other charges on bills or vouchers rendered to the respondent, including any out of period adjustments. Explain in a footnote all components of the amount shown in column (g). Report in column (h) the total charge shown on bills rendered to the respondent. If no monetary settlement was made, enter zero in column (h). Provide a footnote explaining the nature of the non-monetary settlement, including the amount and type of energy or service rendered. 6. Enter "TOTAL" in column (a) as the last lin								
7. Fo	otnote entries and provide ex	planations foll	owing all red	quired data.

	te of Respondent										
	AMOUNTS INCLUDED IN ISO/RTO SETTLEMENT STATEMENTS										
esa or pu heth	The respondent shall report below the details called for concerning amounts it recorded in Account 555, Purchase Power, and Account 447, Sales for esale, for items shown on ISO/RTO Settlement Statements. Transactions should be separately netted for each ISO/RTO administered energy market purposes of determining whether an entity is a net seller or purchaser in a given hour. Net megawatt hours are to be used as the basis for determining mether a net purchase or sale has occurred. In each monthly reporting period, the hourly sale and purchase net amounts are to be aggregated and parately reported in Account 447, Sales for Resale, or Account 555, Purchased Power, respectively.

9. Items under Cost of Plant are based on U. S. of A. Accounts. Production expenses do not include Purchased Power, System Control and Load Dispatching, and Other Expenses Classified as Other Power Supply Expenses. 10. For IC and GT plants, report Operating Expenses, Account No 547 and 549 on Line 25 "Electric Expenses," and Maintenance Account Nos. 553 and 554 on Line 32, "Maintenance of Electric Plant." Indicate plant designed for peak load service. Designate automatically operated plants. 11. For a plant equipped with combinations of fossil fuel steam, nuclear steam, hydro, internal combustion or gas-turbine equipment, report each as a separate plant. However, if a gas-turbine unit functions in a combined cycle operation with a conventional steam unit, include the gas-turbine with the steam plant. 12. If a nuclear power generating plant, briefly explair footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost uni used for the various components of fuel cost; and (c) any other informative data concerning plant type fuel used, fuel enrichment type and quantity for report period and other physical and operating characteristics of plant.					los. nts ir d in by nits

				ANSMISSION LIN						
kilovo 2. Tr subsi 3. Ro 4. Ex 5. In or (4) by the rema 6. Ro repor	Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 ovolts or greater. Report transmission lines below these voltages in group totals only for each voltage. Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report ibstation costs and expenses on this page. Report data by individual lines for all voltages if so required by a State commission. Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole wood or steel; (2) H-frame wood, or steel poles; (3) tower; (4) underground construction If a transmission line has more than one type of supporting structure, indicate the mileage of each type of construction the use of brackets and extra lines. Minor portions of a transmission line of a different type of construction need not be distinguished from the mainder of the line. Report in columns (f) and (g) the total pole miles of each transmission line. Show in column (f) the pole miles of line on structures the cost of which is reported for another line. Report of the line designated; conversely, show in column (g). In a footnote, explain the basis of such occupancy and state whether expenses with spect to such structures are included in the expenses reported for the line designated.

			SUBSTATIONS		-					
2. Su 3. Su to fur 4. In atten	Report below the information called for concerning substations of the respondent as of the end of the year. Substations which serve only one industrial or street railway customer should not be listed below. Substations with capacities of Less than 10 MVa except those serving customers with energy for resale, may be grouped according functional character, but the number of such substations must be shown. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether ended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in umn (f).
