FERC FINANCIAL REPORT FERC FORM No. 1: Annual Report of Major Electric Utilities, Licensees and Others and Supplemental Form 3-Q: Quarterly Financial Report

These reports are mandatory under the Federal Power Act, Sections 3, 4(a), 304 and 309, and 18 CFR 141.1 and 141.400. Failure to report may result in criminal fines, civil penalties and other sanctions as provided by law. The Federal Energy Regulatory Commission does not consider these reports to be of confidential nature

INSTRUCTIONS FOR FILING FERC FORM NOS. 1 and 3-Q

GENERAL INFORMATION

I. Purpose

FERC Form No. 1 (FERC Form 1) is an annual regulatory requirement for Major electric utilities, licensees and others (18 C.F.R. § 141.1). FERC Form No. 3-Q (FERC Form 3-Q) is a quarterly regulatory requirement which supplements the annual financial reporting requirement (18 C.F.R. § 141.400). These reports are designed to collect financial and operational information from electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be non-confidential public use forms.

II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject To the Provisions of The Federal Power Act (18 C.F.R. Part 101), must submit FERC Form 1 (18 C.F.R. § 141.1), and FERC Form 3-Q (18 C.F.R. § 141.400).

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

- (1) one million megawatt hours of total annual sales,
- (2) 100 megawatt hours of annual sales for resale,
- (3) 500 megawatt hours of annual power exchanges delivered, or
- (4) 500 megawatt hours of annual wheeling for others (deliveries plus losses).

III. What and Where to Submit

- (a) Submit FERC Forms 1 and 3-Q electronically through the forms submission software. Retain one copy of each report for your files. Any electronic submission must be created by using the forms submission software provided free by the Commission at its web site: http://www.ferc.gov/docs-filing/forms/form-1/elec-subm-soft.asp. The software is used to submit the electronic filing to the Commission via the Internet.
- (b) The Corporate Officer Certification must be submitted electronically as part of the FERC Forms 1 and 3-Q filings.
- (c) Submit immediately upon publication, by either eFiling or mail, two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders. Unless eFiling the Annual Report to Stockholders, mail the stockholders report to the Secretary of the Commission at:

Secretary Federal Energy Regulatory Commission 888 First Street, NE Washington, DC 20426

(d) For the CPA Certification Statement, submit within 30 days after filing the FERC Form 1, a letter or report (not applicable to filers classified as Class C or Class D prior to January 1, 1984). The CPA Certification Statement can be either eFiled or mailed to the Secretary of the Commission at the address above.

The CPA Certification Statement should:

- a) Attest to the conformity, in all material aspects, of the below listed (schedules and pages) with the Commission's applicable Uniform System of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
- b) Be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 41.10-41.12 for specific qualifications.)

Reference Schedules	<u>Pages</u>
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

e) The following format must be used for the CPA Certification Statement unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

"In connection with our regular examination of the financial statements of _____ for the year ended on which we have reported separately under date of _____ , we have also reviewed schedules ____ of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases."

The letter or report must state which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

- (f) Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. To further that effort, new selections, "Annual Report to Stockholders," and "CPA Certification Statement" have been added to the dropdown "pick list" from which companies must choose when eFiling. Further instructions are found on the Commission's website at http://www.ferc.gov/help/how-to.asp.
- (g) Federal, State and Local Governments and other authorized users may obtain additional blank copies of FERC Form 1 and 3-Q free of charge from http://www.ferc.gov/docs-filing/forms/form-1/form-1.pdf and http://www.ferc.gov/docs-filing/forms.asp#3Q-qas.

IV. When to Submit:

FERC Forms 1 and 3-Q must be filed by the following schedule:

- a) FERC Form 1 for each year ending December 31 must be filed by April 18th of the following year (18 CFR § 141.1), and
- b) FERC Form 3-Q for each calendar quarter must be filed within 60 days after the reporting quarter (18 C.F.R. § 141.400).

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the FERC Form 1 collection of information is estimated to average 1,168 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the FERC Form 3-Q collection of information is estimated to average 168 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

GENERAL INSTRUCTIONS

Prepare this report in conformity with the Uniform System of Accounts (18 CFR Part 101) (USofA). Interpret

II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted, (Enter cents for averages and

all accounting words and phrases in accordance with the USofA.

- figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date amounts.
- Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions (see VII. below).
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- For any resubmissions, submit the electronic filing using the form submission software only. Please explain VII the reason for the resubmission in a footnote to the data field.
- VIII. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.
- IX. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.

Definitions for statistical classifications used for completing schedules for transmission system reporting are as follows:

- FNS Firm Network Transmission Service for Self. "Firm" means service that can not be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff. "Self" means the respondent.
- FNO Firm Network Service for Others, "Firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff.
- LFP for Long-Term Firm Point-to-Point Transmission Reservations. "Long-Term" means one year or longer and" firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Point-to-Point Transmission Reservations" are described in Order No. 888 and the Open Access Transmission Tariff. For all transactions identified as LFP, provide in a footnote the

termination date of the contract defined as the earliest date either buyer or seller can unilaterally cancel the contract.

- OLF Other Long-Term Firm Transmission Service. Report service provided under contracts which do not conform to the terms of the Open Access Transmission Tariff. "Long-Term" means one year or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. For all transactions identified as OLF, provide in a footnote the termination date of the contract defined as the earliest date either buyer or seller can unilaterally get out of the contract.
- SFP Short-Term Firm Point-to-Point Transmission Reservations. Use this classification for all firm point-to-point transmission reservations, where the duration of each period of reservation is less than one-year.
- NF Non-Firm Transmission Service, where firm means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions.
- OS Other Transmission Service. Use this classification only for those services which can not be placed in the above-mentioned classifications, such as all other service regardless of the length of the contract and service FERC Form. Describe the type of service in a footnote for each entry.
- AD Out-of-Period Adjustments. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting periods. Provide an explanation in a footnote for each adjustment.

DEFINITIONS

- I. Commission Authorization (Comm. Auth.) -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent -- The person, corporation, licensee, agency, authority, or other Legal entity or instrumentality in whose behalf the report is made.

EXCERPTS FROM THE LAW

Federal Power Act, 16 U.S.C. § 791a-825r

- Sec. 3. The words defined in this section shall have the following meanings for purposes of this Act, to with:
- (3) 'Corporation' means any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. It shall not include 'municipalities, as hereinafter defined;
 - (4) 'Person' means an individual or a corporation:
- (5) 'Licensee, means any person, State, or municipality Licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;
- (7) 'municipality means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the Laws thereof to carry and the business of developing, transmitting, unitizing, or distributing power;
- (11) "project' means. a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or fore bay reservoirs directly connected therewith, the primary line or lines transmitting power there from to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, Lands, or interest in Lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;
- "Sec. 4. The Commission is hereby authorized and empowered
- (a) To make investigations and to collect and record data concerning the utilization of the water 'resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development -costs, and relation to markets of power sites; ... to the extent the Commission may deem necessary or useful for the purposes of this Act."
- "Sec. 304. (a) Every Licensee and every public utility shall file with the Commission such annual and other periodic or special* reports as the Commission may be rules and regulations or other prescribe as necessary or appropriate to assist the Commission in the -proper administration of this Act. The Commission may prescribe the manner and FERC Form in which such reports salt be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and Liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, generation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies*.10

"Sec. 309. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the FERC Form or FERC Forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be field..."

General Penalties

The Commission may assess up to \$1 million per day per violation of its rules and regulations. *See* FPA § 316(a) (2005), 16 U.S.C. § 825o(a).

	INFORMATION ON FORMULA RATES Formula Rate Variances							
am 2. The For 3. The	If a respondent does not submit such filings then indicate in a footnote to the applicable Form 1 schedule where formula rate inputs differ from amounts reported in the Form 1. The footnote should provide a narrative description explaining how the "rate" (or billing) was derived if different from the reported amount in the Form 1. The footnote should explain amounts excluded from the ratebase or where labor or other allocation factors, operating expenses, or other items impacting formula rate inputs differ from amounts reported in Form 1 schedule amounts. Where the Commission has provided guidance on formula rate inputs, the specific proceeding should be noted in the footnote.

NOTES TO FINANCIAL STATEMENTS (Continued)				

Prairie Wind Transmission, LLC

Notes to Financial Statements

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

Prairie Wind Transmission, LLC (Prairie Wind) is a regulated utility organized in 2008 under the laws of the State of Delaware. Unless the context otherwise indicates, all references in this report to "the company," "Prairie Wind," and similar words are to Prairie Wind Transmission, LLC, alone and not together with its members.

Prairie Wind provides electric transmission services in the Southwest Power Pool (SPP) region in Kansas. Prairie Wind's headquarters is located at 818 South Kansas Avenue, Topeka, Kansas 66612.

Prairie Wind is owned 50% by Evergy Kansas Central, Inc. (Evergy Kansas Central), formerly known as Westar Energy, Inc., a wholly-owned subsidiary of Evergy, Inc., 25% by AEP Transmission Holding Company, LLC, a wholly-owned subsidiary of American Electric Power Company, Inc. (AEP), and 25% by BHE America Transco, LLC, an indirect wholly-owned subsidiary of Berkshire Hathaway Energy Company (BHEC).

Prairie Wind was previously owned equally by Evergy Kansas Central and Electric Transmission America, LLC (ETA). ETA was a limited liability holding company owned 49.5% by AEP Transmission Holding Company, LLC, a wholly-owned subsidiary of AEP, 0.5% by AEP Transmission Partner LLC, a wholly-owned subsidiary of AEP, and 50% by BHE America Transco, LLC, an indirect wholly-owned subsidiary of BHEC, and was dissolved on December 31, 2019. Upon dissolution, ETA distributed 50% of its ownership interest to AEP Transmission Holding Company, LLC and 50% to BHE America Transco, LLC.

Pursuant to applicable provisions of the Delaware Limited Liability Company Act, members have no liability for the debts, obligations or other liabilities of the company, except in certain circumstances where the corporate veil may be pierced under common law and where members have contracted performance guarantees to the SPP.

Basis of Accounting

For this report, the financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its Uniform System of Accounts and published Accounting Releases, which is a comprehensive basis of accounting other than generally accepted accounting principles. The principal differences from accounting principles generally accepted in the United States of America relate to (1) the presentation of income taxes, (2) the presentation of regulatory assets and liabilities, (3) the presentation of long-term debt and debt issuance costs, and (4) the presentation of retained earnings.

Events which occurred subsequent to the date of the balance sheet have been evaluated for potential recognition or disclosure in the financial statements through April 14, 2020, the date these financial statements were available to be issued.

Use of Estimates

When Prairie Wind prepares its financial statements, it is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and expenses and the related disclosure of those items during the reporting period. Prairie Wind evaluates its estimates on an ongoing basis, including those related to income taxes, over/under recovery on its Annual Transmission Revenue Requirement (ATRR), contingencies and litigation. Actual results may differ from those estimates under different assumptions or conditions.

Prairie Wind Transmission, LLC	(2) A Resubmission	1 1	2019/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

Cash and Cash Equivalents

Prairie Wind considers investments that are highly liquid and have maturities of three months or less when purchased to be cash equivalents.

Property, Plant and Equipment

Prairie Wind records the value of property, plant and equipment at cost. For plant, cost includes contracted services, direct labor and indirect charges for engineering and supervision from its members.

Depreciation

Prairie Wind depreciates utility plant using a straight-line method. The depreciation rates are based on an average annual composite basis using group rates that approximated 2.4% in 2019 and 2018, respectively.

Debt Issuance Costs

Prairie Wind accumulates costs incurred to issue debt and amortizes this amount over a period commensurate with the term of the related debt.

Revenue Recognition

Revenue is determined by a formula rate mechanism approved by FERC. Prairie Wind recognizes revenue primarily at the time the company provides transmission service to customers. See Note 3 "Revenue," for additional information regarding revenue recognition

New Accounting Pronouncements

Leases

In February 2016, the FASB issued ASU No. 2016-02, *Leases* (Topic 842), which requires an entity that is a lessee to record a right-of-use asset and a lease liability for lease payments on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. Lessor accounting remains largely unchanged. In January 2018, the FASB issued ASU No. 2018-01, which permits entities to elect an optional transition practical expedient to not evaluate under Topic 842 land easements that existed or expired before the entity's adoption of Topic 842 and that were not previously accounted for as leases under Topic 840. In July 2018, the FASB issued ASU No. 2018-10, "Codification Improvements to Topic 842, Leases," which updates narrow aspects of the guidance issued in ASU 2016-02. Also, in July 2018, the FASB issued ASU No. 2018-11, "Leases, Targeted Improvements," which provides an optional transition method that allows entities to initially apply the new standard at the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption without restating prior periods. In December 2018, the FASB issued ASU No. 2018-20, "Leases: Narrow-Scope Improvements for Lessors," which is expected to reduce a lessor's implementation and

	(1) <u>X</u> An Original	(Mo, Da, Yr)		
Prairie Wind Transmission, LLC	(2) A Resubmission	1 1	2019/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

ongoing costs associated with applying ASU 2016-02. ASU 2016-02 and the subsequent amendments require a modified retrospective transition approach with an option to either adjust or not adjust comparative periods.

Prairie Wind early adopted the new guidance on January 1, 2019 and elected the optional transition method permitted by ASU No. 2018-11. The adoption of the standard did not have a material impact on Prairie Wind's financial statements. Prairie Wind also elected a practical expedient to forgo reassessing existing or expired contracts as leases to determine whether each is in scope of the new standard and to forgo reassessing lease classification for existing and expired leases.

2. REVENUE

Prairie Wind provides electric transmission services in the SPP region in Kansas with 109 miles of a 345 kilovolt, double-circuit transmission line. Prairie Wind's revenues are generated from the use of their transmission line by the SPP. In exchange for providing access, the SPP pays Prairie Wind consideration determined by formula rates approved by FERC, which include the cost to construct and maintain the transmission line and a return on investment. The price for access to Prairie Wind's transmission line is updated annually based on projected costs. Projections are updated to actual costs and the difference is included in subsequent year's prices.

Prairie Wind recognizes revenue on the sale of transmission service to the SPP over time as the service is provided in the amount it has a right to invoice. Transmission service to the SPP is billed monthly.

Prairie Wind's receivables from the SPP for the years ending December 31, 2019 and 2018 were \$1.3 million and \$1.5 million, respectively.

3. RATE MATTERS AND REGULATION

FERC

FERC authorized the recovery of Prairie Wind's costs through a formula rate and further authorized a return on equity (ROE) of 12.8%, comprised of a 10.8% base ROE, 1.5% incentive adders, and 0.5% adder for Regional Transmission Organization participation. The formula rate uses Prairie Wind's actual capital structure and limits the equity component to not exceed 60%.

Under the formula rate mechanism approved by FERC, Prairie Wind calculates its Annual Transmission Revenue Requirement (ATRR) based on projected costs and plant balances. The ATRR is collected through the SPP's Open Access Transmission Tariff rates. Each year, Prairie Wind files an update to the ATRR which includes projections for costs to be incurred, an allowed return on investment and a prior period true-up adjustment with interest. Prairie Wind's true-up adjustment is the difference between the previous rate year's actual ATRR and the previous rate year's projected ATRR. This amount is recorded as a regulatory asset or liability until amortized to regulatory debits or credits in a later year.

Tax Cuts and Jobs Act

The Tax Cuts and Jobs Act (TCJA), which was signed into law in December 2017, contains significant changes to federal corporate income taxation including, among other things, a federal corporate income tax rate decrease from 35% to 21%, effective for tax years after December 31, 2017. Prairie Wind's ATRR projection for 2018 was calculated based on the federal corporate income tax rate of 35% and was adjusted to 21% when Prairie Wind filed the annual update in 2019. As a result, Prairie Wind recorded a regulatory liability of \$2.0 million as of December 31, 2018. As of December 31, 2019, the regulatory liability was \$2.2 million. This amount will be returned to customers through the ATRR in 2020.

	(1) X An Original	(Mo, Da, Yr)		
Prairie Wind Transmission, LLC	(2) A Resubmission	1.1	2019/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

4. TAXES

Prairie Wind is a limited liability company that is taxed as a partnership under the Internal Revenue Code and applicable state statutes. As a result, Prairie Wind is not liable for federal or state income taxes. Prairie Wind is allowed, however, to recover in rates as a component of cost of service the amount of income taxes that is the responsibility of its members. Therefore, Prairie Wind has included a provision for its members' federal and state income taxes in this report.

The current tax provisions recognized are accumulated in account 236 – Accrued Income Taxes. Distributions paid to members for the income taxes attributable to their ownership reduce this balance and are reported as cash outflows from operations on the statement of cash flows. No tax distributions were made for year to date December 31, 2019 and 2018.

Components of income tax expense are detailed in the following table.

	Year Ended December 31,				
	2019 2018			2018	
	(In Thousands)				
Charged to operating expense (net):					
Deferred	\$	2,461		\$	2,444

Prairie Wind Transmission, LLC	(2) _ A Resubmission	1 1	2019/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

Effective Income Tax Rates

Effective income tax rates reflected in the financial statements and reasons for the differences from the statutory federal rates are detailed in the following table.

	Year Ended December 31,		
	2019	2018	
Statutory federal income tax rate Effect of:	21.0%	21.0%	
State income taxes	5.5	5.5	
Effective income tax rate	26.5%	26.5%	

The TCJA, as noted in Note 3 significantly reformed the IRC, generally effective January 1, 2018. The TCJA contained significant changes to federal corporate income taxation, including, in general and among other things, a federal corporate income tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, limiting the deduction for net operating losses and eliminating net operating loss carrybacks for losses after 2017, and eliminating Prairie Wind's use of bonus depreciation on new capital investments.

Prairie Wind remeasured its deferred tax assets and liabilities to the new federal corporate income tax rate of 21%. The result of this remeasurement was a reduction in the net deferred tax liability of approximately \$6.0 million representing the amount of excess deferred income taxes (EDIT) that will be used to reduce future customer rates. Prairie Wind recorded an increase in regulatory assets of approximately \$6.0 million and regulatory liabilities of approximately \$14.1 million for an increase in net regulatory liabilities of \$8.1 million. The additional \$2.1 million of net regulatory liabilities was needed to reflect the future revenue reduction required to return previously collected income taxes to customers and was offset with a \$3.7 million deferred tax asset and a \$1.6 million deferred tax liability gross up. The accounts that increased and (decreased) from the remeasurement of deferred income taxes are reflected below (in thousands):

182.3		82.3	254	190	282	283
	\$	5,971	\$14,110	\$(688)	\$(10,366)	\$ 1,540

The amount of EDIT (excluding the tax gross-up in account 190 of \$3.7 million and in account 283 of \$1.6 million) that is considered protected and unprotected as of December 31, 2019 and 2018 due to (from) customers is reflected below (in thousands):

Federal EDIT	December 31, 2019	December 31, 2018
Protected Plant	\$ 10,366	\$ 10,366
Protected NOL	(3,963)	(3,963)
Unprotected Other	(424)	(424)

There was no amortization of EDIT in 2019 and 2018 since Prairie Wind does not yet have a mechanism in place to share the net tax benefits with its FERC customers. Additionally, Prairie Wind does not yet have an agreed upon amortization method and life with FERC for its Unprotected Other EDIT shown above. Prairie Wind will use the average rate assumption method (ARAM) for amortization of its Protected EDIT. ARAM is an approach provided in the TCJA to refund depreciation-related EDIT over the remaining book lives of the underlying assets which are estimated to be approximately 30 years. The EDIT in account 254 will amortize to account 411 and the EDIT in account 182.3 will amortize to account 410.1.

NOTES TO FINANCIAL STATEMENTS (Continued)							

5. NOTES PAYABLE

Prairie Wind issued \$85.0 million principal amount of 3.68% fixed-rate senior secured notes that are due serially with final maturity in December 2044. The notes amortize at a constant 2.5% and are secured by utility assets. The carrying value of the notes was approximately \$66.0 million as of December 31, 2019 and \$69.4 million as of December 31, 2018. The fair value was approximately \$71.5 million and \$67.2 million as of the same dates. Prairie Wind measures the fair value of the notes based on similar risk-rated utility yields with similar or interpolated maturities at the measurement date.

The principal amounts of our senior secured note maturities as of December 31, 2019 are as follows.

<u>Year</u>	(In T	housands)
2020	\$	3,258
2021		3,097
2022		2,944
2023		2,799
2024		2,661
Thereafter		51,229
Total Maturities	\$	65,988

6. COMMITMENTS AND CONTINGENCIES

Prairie Wind may be subject to certain claims and legal actions arising in its ordinary course of business. The ultimate outcome of such pending or potential litigation cannot be predicted. Management does not anticipate that the liabilities, if any, arising from such proceedings would have a material adverse effect on its financial statements.

7. RELATED PARTY TRANSACTIONS AND RELATIONSHIPS

Prairie Wind's cash management function, including cash receipts and disbursements, is performed by Evergy Kansas Central. Prairie Wind is billed by its members for their employees' time and expenses for services performed on its behalf. Prairie Wind's intercompany balances are listed below:

	lber 31, 19	Dec	cember 31, 2018
	(In The	ousands)	
Accounts Payable to Members			
Evergy Kansas Central	\$ 6	\$	3
ETA	-		1
Total Accounts Payable to Members	\$ 6	\$	4

Prairie Wind distributed \$9.7 million and \$12.8 million as returns to members during year to date December 31, 2019 and 2018, respectively. Prairie Wind reports these distributions as cash outflows from financing activities on its statement of cash flows.

	RECONCILIATION OF REPO	RTED	NE	T INCOME WITH TAXABLE	INCOME FOR FEDERAL	INCOME	TAXES				
the years separaments 3. A s	Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show imputation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for expear. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a parate return were to be field, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group tember, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members. A substitute page, designed to meet a particular need of a company, may be used as Long as the data is consistent and meets the requirements of a above instructions. For electronic reporting purposes complete Line 27 and provide the substitute Page in the context of a footnote.

		SALE	S FOR RESALE (Acco	unt 447)	+						
1. Report all sales for resale (i.e., sales to purchasers other than ultimate consumers) transacted on a settlement basis other than power exchanges during the year. Do not report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges on this schedule. Power exchanges must be reported on the Purchased Power schedule (Page 326-327). 2. Enter the name of the purchaser in column (a). Do note abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser. 3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows: RQ - for requirements service. Requirements service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers. LF - for tong-term service. "Long-term" means five years or Longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for Long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or setter can unilaterally get out of the contract. IF - for intermediate-term firm service. The same as LF service except that "intermediate-term" means longer than one year but Less than five years. SF - for short-term firm service. Use this category for all firm services where the duration of each period of commitment for service is one year or less. LU - for Long-term service from a designated generating unit. "Long-term" means five years or Lon

Praine Wind Transmission, LLC (2) A Resubmission / / End of 2019/04 HYDROELECTRIC GENERATING PLANT STATISTICS (Large Plants) 1. Large plants are hydro plants of 10,000 Kw or more of Installed capacity (name plate ratings) 2. If any plant is leased, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, indicate such facts afontorie. If licensed project, byte project number of storonte. If licensed project, byte project number of storonte. If licensed project, byte project number of the plant	Name	e of Respondent	This Report Is): Original	Date of Report		Year/Period of Report
HYDROELECTRIC GENERATING PLANT STATISTICS (Large Plants) 1. Large plants are hydro plants of 10,000 Kw or more of installed capacity (name plate ratings) 2. If any plant is leased, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, indicate such facts a footnote. If licensed project, give project number. 3. If not peak demand for 60 minutes is not available, give that which is available specifying period. 4. If a group of employees attends more than one generating plant, report on line 11 the approximate average number of employees assignable to eplant. Line Item	Prair	ie Wind Transmission, LLC			(Mo, Da, Yr)		End of 2019/Q4
1. Large plants are hydro plants of 10,000 Kw or more of installed capacity (name plate ratings) 2. If any plant is leased, operated under a luense from the Federal Energy Regulatory Commission, or operated as a joint facility, indicate such facts a dorbrote. If licensed project, give project number, 3. If net peak demand for 50 minutes is not available, give that which is available specifying period. 4. If a group of employees attends more than one generating plant, report on line 11 the approximate average number of employees assignable to e plant. Line Item		10/2025					
2. If any plant is leased, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, indicate such facts altorition. If licensed project, other project numbers. 3. If net peak demand for 60 minutes is not available, give that which is available specifying period. 4. If a group of employees attends more than one generating plant, report on line 11 the approximate average number of employees assignable to eplant. kilovo 2. Tr subst 3. Ro 4. Ex 5. In or (4) by the	TRANSMISSION LINE STATISTICS Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 lovolts or greater. Report transmission lines below these voltages in group totals only for each voltage. Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report abstation costs and expenses on this page. Report data by individual lines for all voltages if so required by a State commission. Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole wood or steel; (2) H-frame wood, or steel poles; (3) tower; (4) underground construction If a transmission line has more than one type of supporting structure, indicate the mileage of each type of construction of the line.									
	eport in columns (f) and (g) the ted for the line designated; con
